WHAT TO BRING ON A DEPLOYMENT

A-Bag, General Support: Issued to all mobility personnel and contains
basic items: Field gear, Sleeping bag, and Mess kit.

B-bag, Artic: Issued based on the climate of your location, it contains:
Mittens, Parka, Long Johns, and other items to promote warmth.

C-Bag, Chemical Warfare: Issued when deploying to a chemical-biological (CB) high threat area. You will deploy with a C-1 bag containing two complete ground crew ensembles, M8/M9 paper, decontamination kits, and a canteen cap. Two additional ground crew ensembles will either be palletized and shipped to the deployed location, or shipped from the Air Force Consolidated Mobility Bag Control Center (CMBCC).

D-Bag, Aircrew Chemical Warfare Contains aircrew

Pack your gear and be ready to walk. Many times you may not be near your billets or your office when you arrive.

Pack light, Pack right
Pack Smart!

WHERE YOU MAY WORK

The Command Post.
The Command Post, sometimes referred to as the Wing
Operations Center (WOC), is the installation's primary
command and control nerve center. The Command Post
conjunction with the Survival Recovery Center (SRC),
implements operational plans and priorities; controls a
monitors mission generation capabilities; and ensures i
survivability. The host installation commander normally
establishes the Command Post.

The Survival Recovery Center (SRC).
The SRC coordinates and conducts tactical planning an
contingency response activities, and major accident an
disaster response/recovery actions to mitigate effects,
and restore mission capability. The SRC collects and an
status reports from unit control centers and reports up
to the senior commander through the CP/WOC.

Operations Control Center: Controls aircrew, tactics, mi
planning, and other aspects of the flying mission.

Maintenance Control Center: Responsible for launch, re
service, parking, and maintenance of aircraft. Coordinates
functions.

Damage Control Center: Controls damage assessment a
recovery teams. Coordinates and monitors base repairs.

Air Terminal Operations Center: Controls aerial port fu
and passenger processing and loading.

Personnel Control Center: Responsible for personnel ac
manpower replacements.

Medical Control Center: Reports status of hospital/clinic
medical requirements and supply requisition.

Base Defense Ops Center: Acts as the focal point for air base defense
and all security measures.

Services Control Center: Responsible for all service functions, food,
billeting, laundry, recreation and fitness, mortuary affairs.

Transportation Control Center: Controls the distribution of
transportation assets and prioritizes vehicle maintenance.

NBC Control Center: Manages NBC reconnaissance teams, reports
NBC contamination, coordinates with unit shelter management and

Major contingency response activities controlled by the SRC are:

Passive defense -- measures for hardening; dispersal; camouflage, concealment and deception; nuclear, biological, and
chemical defense.

Recovery actions -- damage assessment, fire, casualties, and
suspected contamination; unexploded ordnance reconnaissance, rapid runway repair, expedient utility and facility repair, and contamination control.

MAJOR UNIT CONTROL CENTERS (UCC) ARE:

KNOW YOUR THREAT

KNOW YOUR THREATCON

and

KNOW WHAT TO DO!

Threat Conditions *Ref AFI 31-210*

Threat conditions (THREATCONS) are used to describe progressive levels of terrorist threats to U.S. military facilities and personnel. The selection of the appropriate response to terrorist threats is the responsibility of the commander having jurisdiction or control over the threatened facilities or personnel.

NORMAL-Applies when a general threat of possible terrorist activity exists

ACTIONS TAKEN

Warrants only a routine security posture

ALPHA-Applies when there is a general threat of possible activity against personnel and facilities, the nature and extent of which is unpredictable

ACTIONS TAKEN

- Secure unoccupied buildings, rooms, and storage areas. Increase spot checks of

BRAVO-Applies when an increased and more predictable threat of terrorist activity exists

ACTIONS TAKEN

-Inspect interior and exterior of buildings for
suspicious packages

-Increase spot checks of entering personnel

-Move vehicles, crates, and trash

CHARLIE - Applies when an incident has occurred or intelligence is received indicating some form of terrorist action against personnel and facilities is imminent.

ACTIONS TAKEN

- Complete ALPHA and BRAVO checklist items

- Check ID of all personnel entering work centers

DELTA-Applies in the immediate area where a terrorist attack has occurred or when intelligence has been received that terrorist action against a specific location or person is likely.

ACTIONS TAKEN

-Complete ALPHA, BRAVO, and CHARLIE
checklist items
- Ensure 24-hour-a-day security for controlled areas
- Conduct security checks every 6 hours

KNOW YOUR AREA

BE FAMILIAR WITH YOUR SURROUNDINGS AND THE PEOPLE

IF IN DOUBT REPORT ANY DISCREPANCY YOU SEE TO YOUR UCC or SRC

SALUTE REPORT

S - Size: number of personnel or vehicles

A - Activity: Assaulting, Fleeing, Observing

L - Location: Where, Grid Map, Identifiable

Reference Point

U - Unit/Uniform: Distinctive Signs, Symbols,

IN THE AREA

- Always have your ID card with you

- Know the sign/counter-sign for the day

- Know the procedures for a challenge
  -- Alone, you can vouch for

FIELD GEAR

and

MISSION-ORIENTED PROTECTIVE POSTURES (MOPP)

BE READY FOR THE FIELD, PHYSICALLY AND MENTALLY!

REVIEW 1st AID STEPS

HYDRATE

ITEMS YOU HAVE IN THE FIELD

- Battle Dress Overgarment (BDO)

- Joint Lightweight Integrated Suit Technology (JLIST)

- Footwear Covers
  --4/5 eyelet style (Black lace up)

- Gloves (With cotton insert)

- Protective Mask w/Hood
  -- MCU2A/P(Primarily used by DOD)
  -- M-17A2 (Used as substitute for the
      X-small MCU 2 A/P)

- Helmet/Web Belt w/canteen

ALWAYS CHECK OUT YOUR GEAR PRIOR TO NEEDING IT!

MOPP LEVELS

LEVEL - 0
LEVEL - 1
LEVEL - 2
LEVEL - 3
LEVEL - 4
LEVEL ALPHA

USE THE BUDDY SYSTEM

ALARM CONDITIONS

REACT TO THE ALARM

ALARM: ***YELLOW***

(Yellow Flag/Giant Voice)

Attack is probable
Wear helmet and IPE

Assume MOPP - 1
Unless otherwise directed

Know where your shelter is!

ALARM: ***RED***

(Red Flag/Giant Voice/Siren)

Attack is IMMINENT or in Progress

Take Cover/Black Out Conditions/ Assume MOPP 4 Unless Otherwise Directed/Mission Essential Movement ONLY

-Take cover under a desk or a table

-If outside, find a bunker

-Lay flat face down, hands over head

-Get as low as possible

ALARM: *BLACK*

(Black Flag/Giant Voice/Siren)

Post Attack

MOPP - 4 Unless otherwise directed

Post Attack Reconnaissance, Search for injured, Search for Unexploded Ordinance (UXO)

MINIMUM MOVEMENT

KNOW WHO IS GOING TO DO WHAT

HAVE A PLAN FOR POST ATTACK PROCEDURES

CHECK FOR INJURED AND GET THEM TREATMENT

SEARCH FOR UXO'S AND MARK THEM

-Notify your Unit Control Center

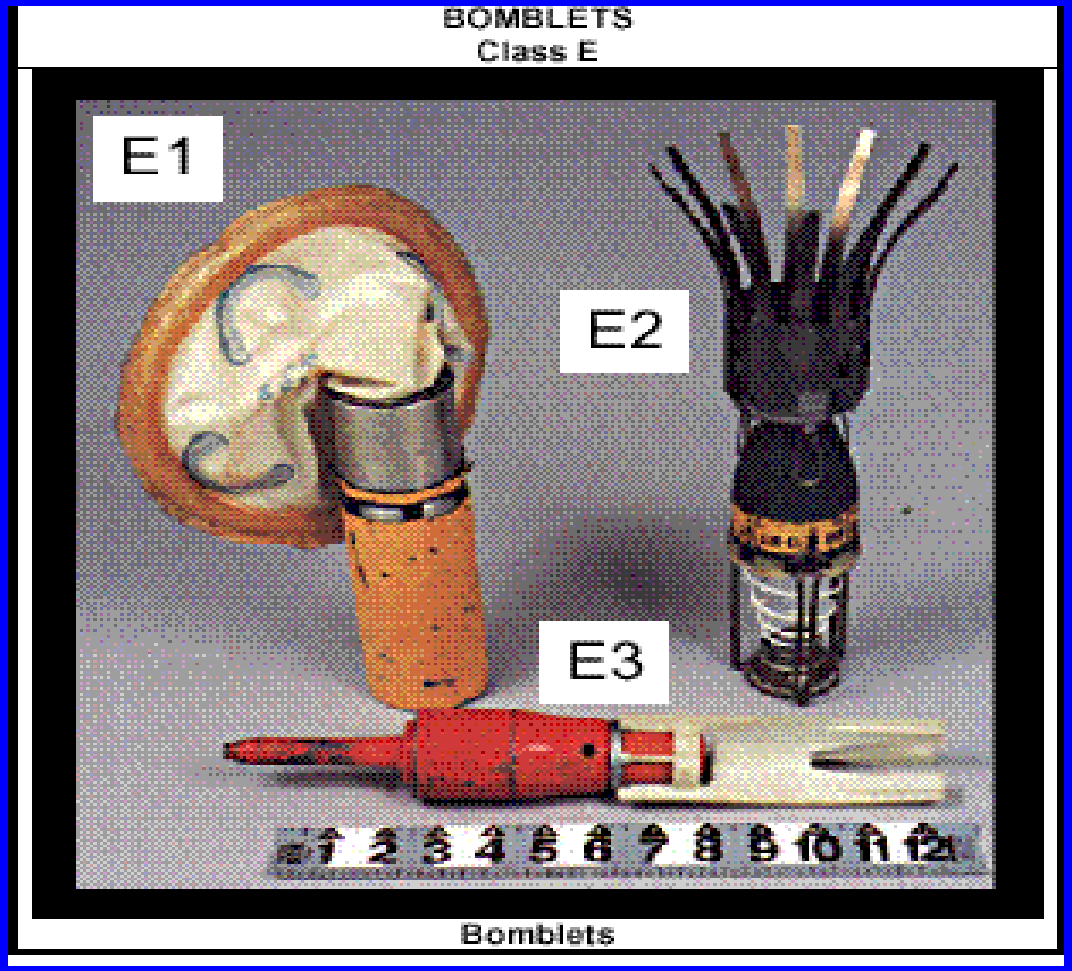
(NEVER, NEVER approach, do not
use a radio W/in 25 Meters)

-Give your name, unit, time found
-Location of the UXO
-Any special features or

USE ANYTHING AVAILABLE TO MARK THE UXO

ENSURE THE METHOD USED IS VISIBLE DURING DAYLIGHT AND HOURS OF DARKNESS

UXOs COME IN MANY SHAPES AND SIZES



-If in doubt mark it and notify the
UCC

-Evacuate the area

-Check for injured in the immediate
area and evacuate them
